Education

Northern Illinois University | Undergraduate | 2015-2019 | Current GPA: 3.00

- B.S Computer Science, Computational Software
- Minor: Mathematics

Experience

Full Stack Web Developer | Northern Illinois University | Apr 2016 - Present (1 year 6 months)

- At NIU I maintained and wrote internal applications for the schools housing department
- I developed applications that replaced lagacy code, logged internal issues, monitored users, and sent timed email notifications to hall residents
- On a daily basis I work with JavaScript, PHP, HTML, Github, Docker, Unix, and CSS
- Responded to tickets submitted by users
- Assisted in converting all server side application to run in docker containers
- Farmiliar with code reviews, coding standerds, and version control

Skills

Languages

JavaScript, Python, C++, SQL, Bash, C#, Java, HTML, CSS

Utilities

Docker, Github, Linux, JQuery, AngularJS, NodeJS, Fiddler

Projects

Video Game Design Club

- This Club aims to teach students how to write video games and compete in game jams
- I taught members of this club the basics of the Unity Engine and other development tools
- I lead and helped in the development of numerous gaming projects

BlenderBot

- This project was developed over the summer of 2017 to add utility to discord chats by adding chat commands
- Worked with six people to develop this porjects scope and main features
- Through this porject I learned about iterative development, effective file structures, user feedback, and planing code
